To whom it may concern,

My name is [REDACTED] and I am a USCG veteran and also an addict. After 6 years of using substances to help me cope with lifes challenges, I found the California Palms Recovery Campus by fate. Most of my life the internet was a negative, but in this case, searching for veteran rehabs, and connecting with Elizabeth Beckley, allowed me to enter a 30 day program which I contribute to saving my life. With the leadership of Sebastian Rucci, I fully believe that MANY veterans similar to myself will be able to take control of their life back and learn techniques that will ultimately save them.

This was a blessing in disguise. Not only was it far from the institutionalized environment I experienced with the Veterans Affairs facilities, but ultimately it became a brotherhood in which I am proud to fully support. The state of Ohio in my opinion would be fools not to fully support this facility. A monetary value cannot be placed on such effective treatment as I received. I was cared about my many, challenged to get outside of my comfort zone, and educated by their holistic approach to be able to move forward in my every day life.

I plan to promote and encourage many other veterans to seek treatment at CaliPalms. The attrition rates from other programs are in deed pathetic, and this is the first time in my life that I actually feel able to control my decision making, and prevent myself from going back into the dark pit I normally found myself in through addiction. They are a family. They are saving lives, and I would like to respectfully request full support from the State in order to allow Sebastian and his truly amazing team of professionals to continue this incredible work.

I am only one of many addicts in this country and I will be forever grateful for the love and guidance I received at this truly special place. If you require any further information please don't hesitate to contact me at [REDACTED]. Thank you.

Best Regards,

[REDACTED]
