## Palms Testimonial

---

[REDACTED]

To: Sebastian Rucci <sebastian@caliparc.com>

My name is [REDACTED] and I'm an addict. I am 36 years old and have two children, a daughter 15 and my son is 9. I obtained my GED in prison at the age of 35. I've been to prison twice due to my addiction. I've been to several different rehab facilities and have been in and out of County jails. I've struggled with addiction for 23 years and have overdosed a handful of times. The care I received at California Palms has been by far the most beneficial to me. They offer numerous groups and programming as well as Fitness classes. The director went above and beyond for me. He helped me get an attorney and help with my bond in an effort to help me return to the California Palms. This facility made me feel like a person trying to get help, not an addict being punished for my disability. I am forever grateful to Mr. Rucci and all of the employees at the California Palms
